

ELECTRONIC PRICING CATALOG NAVIGATION INSTRUCTIONS

Questions? Call 1-800-810-1053

Select by Pump Model:

If you know what pump you are looking for, you can use the 'Bookmarks' tab on the left and select the pump model which you are trying to access. Clicking in the Bookmark will take you to the page you are looking for.

If there are no tabs on the left (bookmarks, signatures, layers, pages), you can use the top menu to make them appear. Goto VIEW > SHOW/HIDE > NAVIGATION PANES > BOOKMARKS and they will appear.

Sample Pump ID Tag: See the illustration below for help identifying the location of the Model number and Serial number on the pump ID tag.

Please reference your serial number when ordering replacement parts.

Select by Part Number:

If you know an exact part number you are looking for, simply hit CONTROL+F and that will bring up the find feature. You may also use the menu, goto EDIT > FIND to bring up the same feature.

Type in your part number and it will show you all instances of that item in the catalog. If you only know some of the part number (i.e. SP328), that will also help and show all occurrences of those numbers together.

Be advised that partials of part number can return a large amount of results.
