

MYERS® MBSP

The Myers MBSP battery-operated back-up sump pump is designed to back up primary residential sump pumps in case of pump or power failure. A must for those installations where an inoperative sump pump can not be tolerated. Separate float switch and built-in alarm automatically starts back-up system and activates warning buzzer to protect against high water damage and warn of primary pump failure.

APPLICATIONS

Emergency dewatering

SPECIFICATIONS

Housing – Thermoplastic
Intermittent Liquid Temperature – Up to 77°F (25°C)
Pump Down Range – Variable with float setting
Pump Discharge – 1.25" NPT (31.75 mm)
Motor/Electrical Data – 12V, DC, 9A at 10 ft. (3M) lift
Impeller – Thermoplastic
Capacities – Up to 30 GPM (114 LPM)
Heads – To 16 ft. (4.88 m)
Battery Charger – Input 120V, 15W, 60 Hz; Output 12V, 2A; Plug-in type wall-mounted transformer
Check Valve – Dual check valves
Battery Requirement* – 12V, deep cycle, marine-type (Group 24), minimum 75-120 AH

FEATURES

Protects Home

If AC-powered pump fails

Backs Up Residential Sump Pump

Automatically during power outage or pump failure (primary pump and piping not included)

Reliable Operation

Self-charging System

Continuous

Solid-state Controller

Monitors battery charge and pump operation

Audible Alarm

Sounds when standby pump activates

Controller

Includes connectors for pump, charger, float switch and battery*

Area Light

Illuminates dark, powerless work area

Works With Flooded and Sealed AGM Deep Cycle Lead-Acid Battery

Can use two batteries for extended protection

Re-settable Circuit Breaker

Eliminates the need for a fuse

2A 5-Stage Charger

Maintains 90% charge

*Deep cycle marine-type battery (Group 24) recommended – not included with MBSP system
